Premier Dairies: for their generous assistance in lending suitable
slides and for their advice on the preparation of notes relating to
this topic.

N.B. The content of this booklet is primarily intended for the teacher
and is not to be read frame by frame to the pupils. Rather it
is hoped that the teacher will preview the filmstrip and read the
script before deciding on the most effective method of presentation.
It may be advisable to cut up the filmstrip and to treat the
relevant frames as individual slides.

The notes appear in bilingual form - the commentary accompanying
some frames is presented in English while in the case of others
it is presented in Irish.
