Valentine Bingo

Educational bingo games are a great way for pupils to learn so many different skills. They help with listening skills, visual discrimination, group work, turn taking and the reinforcement of the learning content of that particular bingo game.

This bingo game focuses on the theme of "Valentine's Day" and it features images like roses, sweets, chocolates, hearts, card etc. Twelve images in all are used. Six different bingo cards are included, so it would be useful for Station Teaching or small group work. Three ways of playing the bingo game are included – using either picture-picture matching, word-picture matching or shadow-picture matching.

Print out and laminate sheets 2-7 for the pupils. Print and laminate multiple copies of either the picture cards or the words cards or the shadow cards and cut them up individually. These could all be laminated so that they can be used again and again.

Place the deck of cards upside-down in the centre of the group. Each pupil selects a card from the top of the deck. If they have that image/word/shadow on their card, they place the selected card on top of it. The first pupil to cover all six images on their card wins the game.

Alternatively, just print one copy of the twelve pictures/words/shadows, laminate and cut up into cards. Place the deck of cards in the centre of the group. When a pupil selects a card with the same image/word/shadow as one on their own card, they cover their image with a counter or small cube and return the card to the bottom of the deck.
